

Butterflies are Delicate Flowers

Butterflies are delicate flowers.
Fragile, like my mothers china set.
Broken with a touch.

Butterflies are delicate flowers.
They start out small, and grow big.
From an egg to an adult,
Or a seed to a flower.

Butterflies are delicate flowers.
With colors so vibrant,
They seem surreal.

Butterflies are delicate flowers.
Flitter, flutter, go their wings,
As they dance through the air.
Swoosh, whoosh, go their petals,
As they dance to the wind.

Butterflies and delicate flowers:
Like sisters or brothers,
They take care of each other,
Keeping one another alive.
